

FIT FOR THE GODS

Josephine Homes' elegant products are housed in the finest homes, estates, and palaces around the world. Take this Klismos chair for example: what is most striking about it is the distinct and deep connection to art and Italian craftsmanship since this Neoclassical chair and all other creations from the Josephine collection come from Italy. Secondly, the materials are the penultimate in aesthetic elegance with that one-of-a-kind prestigious quality. From ebony wood to the inlay detail, everything is of a preciseness unachieved anywhere else. Look closely to the inlay work - Nothing is painted on. Respect for the classical past is reflected in each piece of furniture for those with refined taste.
