## Natalie Shaheen

### Josephine Homes

Italian workmanship cannot be reproduced. It is continuously being revitalized with new life generation after generation. And, it is in this precise manner that Natalie Shaheen and Josephine Homes have dedicated themselves to reinventing the European classical style. Their Italian artisans, architects, and decorators have created a prestigious style recognized throughout the world for unparalleled quality, luxurious style, and practicality of purpose. Each piece represents the pride of countless generations of craftsmen and demonstrates hand-carving, polishing, and hand-painting. Each masterpiece has been studied and worked by skillful hands with unique taste, making it a “unique art work” that over time can only appreciate in value.

Josephine Homes’ unique collections combine classical and contemporary styles, which provide clients with furniture and accessory pieces that become original works of art. Their 360° interior design services are all-encompassing for the entire home, including consultation,

design planning, installation, and coordination with contractors involved. Whether a single piece of art, custom furniture, accessories, fine fabrics, doors, frescoes, or high-end wall paneling, each is creatively designed through the collaboration of Josephine Homes’ experienced international team.

They have carried the fascination and the prestige of “made in Italy” into the most luxurious homes, estates, and palaces all around the world. The dedication to creating beauty, the care in quality production, and the undivided attention paid to the specific needs of clients, make Josephine Homes a precious partner in obtaining that magical alchemy in décor for homeowners. And for your convenience, Josephine Homes offers complimentary design services with purchase.

They invite you to visit their elegant showrooms at 2 Henry Adams Street, Showroom #490, in San Francisco. To set up an appointment, please call 415.252.0959, or visit [www.JosephineHomes.com](http://www.JosephineHomes.com). ■
